Background

The Health and Human Services Commission (HHSC) is responsible for the reimbursement determination functions for the Texas Medicaid Program. Proposed rates are calculated utilizing established methodologies that conform to the Social Security Act and related federal regulations, the federally approved Texas Medicaid State Plan, all applicable state statutes and rules, and other requirements. HHSC reviews the Medicaid reimbursement rates for all acute care services every two years. These biennial reviews result in rates that are increased, decreased, or remain the same. The reviews are unrelated to any rate reduction imposed by the legislature but rather conducted to ensure that rates continue to be based on established rate methodologies.

Methodology

The specific administrative rules that govern the establishment of the fees in this proposal include these rules in Title 1 of the Texas Administrative Code (1 TAC):

- §355.8081, which addresses payments for laboratory and x-ray services, radiation therapy, physical therapists' services, physician services, podiatry services, chiropractic services, optometric services, ambulance services, dentists' services, psychologists' services, licensed psychological associates' services, maternity clinic

services, and tuberculosis clinic services;

- §355.8085, which addresses the reimbursement methodology for physicians and other medical professionals, including medical services, surgery, assistant surgery, and physician administered drugs/biologicals; medical services, surgery, assistant surgery, radiology, laboratory, and radiation therapy; and
- §355.8091, which addresses the reimbursement methodology for Licensed Professional Counselors, Licensed Master Social Worker-Advanced Clinical Practitioners, and Licensed Marriage and Family Therapists.

The reimbursement rates proposed reflect applicable reductions directed by the 2012-2013 General Appropriations Act, H.B. 1, 82nd Legislature, Regular Session. Detailed information related to specifics of the reductions can be found on the Medicaid fee schedules.

Proposed Rates

The proposed rates for psychiatric services are based on one of the following:

- The weighted average of comparable procedure codes, or
- The current Medicaid fees for comparable procedure codes.
