Background

HHSC is responsible for the reimbursement determination functions for the Texas Medicaid Program. Proposed rates are calculated utilizing established methodologies that conform to the Social Security Act and related federal regulations, the federally approved Texas Medicaid State Plan, all applicable state statutes and rules, and other requirements. HHSC reviews the Medicaid reimbursement rates for all acute care services every two years. These biennial reviews result in rates that are increased, decreased, or remain the same. The reviews are conducted to ensure that rates continue to be based on established rate methodologies.

Methodology

The specific administrative rules that govern the establishment of the fees in this

proposal include this rule in 1 TAC:

- §355.8620, which addresses the reimbursement methodology for services provided in Indian Health Service and Tribal Facilities.

Proposed Rates

The proposed payment rates were calculated in accordance with the rate specified in the April 8, 2014, issue of the *Federal Register* (79 Fed. Reg. 19345).

Proposed payment rates are listed in the attachment outlined below:
