Background

HHSC is responsible for the reimbursement determination functions for the Texas Medicaid Program. Proposed rates are calculated utilizing established methodologies that conform to the Social Security Act and related federal regulations, the federally approved Texas Medicaid State Plan, all applicable state statutes and rules, and other requirements. HHSC reviews the Medicaid reimbursement rates for all acute care services every two years and clinical laboratory services are reviewed annually. These biennial reviews result in rates that are increased, decreased, or remain the same. The reviews are unrelated to any rate reduction imposed by the Legislature but rather conducted to ensure that rates continue to be based on established rate methodologies.

Methodology

The specific administrative rules that govern the establishment of the fees in this

proposal include these rules in 1 TAC:

- §355.8021, which addresses the reimbursement methodology for home health services and durable medical equipment, prosthetics, orthotics, and supplies; and
- §355.8441, which addresses the reimbursement methodology for Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) Services.

Proposed Rates

The proposed rental fees are based on 1/10th of the Medicaid purchase fee.

Proposed payment rates are listed in the attachment outlined below:
