SUMMARY OF PROPOSED ADJUSTMENTS

To Be Effective July 1, 2017

Included in this document is information relating to the proposed adjustments to Medicaid payment rates for Physical, Occupational, and Speech Therapy provided by Comprehensive Outpatient Rehabilitation Facilities/Outpatient Rehabilitation Facilities (CORF/ORF), Home Health Agencies (HHA), and Independent Therapists. The rates are proposed to be effective July 1, 2017.

Hearing

The Health and Human Services Commission (HHSC) will conduct a public hearing to receive comments regarding the proposed adjustments to Medicaid rates detailed in this document on May 24, 2017, at 9:00 a.m. in the Public Hearing Room in the Brown-Heatly Building at 4900 North Lamar Boulevard, Austin, Texas 78751, with entrance through Security at the front of the building facing Lamar Boulevard. HHSC will consider all concerns expressed at the hearing prior to final rate approval. This public hearing will be held in compliance with the provisions of Human Resources Code §32.0282 which requires a public hearing on proposed payment rate adjustments. Should you have any questions regarding the information in this document, please contact:

Background

HHSC is responsible for the reimbursement determination functions for the Texas Medicaid Program. Proposed rates are calculated utilizing established methodologies that conform to the Social Security Act and related federal regulations, the federally approved Texas Medicaid State Plan, all applicable state statutes and rules, and other requirements. HHSC reviews the Medicaid reimbursement rates for all acute care services every two years. These biennial reviews result in rates that are increased, decreased, or remain the same. The reviews are conducted to ensure that rates continue to be based on established rate methodologies.

Methodology

The specific administrative rules that govern the establishment of the fees in this proposal include these rules in 1 TAC (please note there are pending rule changes for several of the rules listed below):

- §355.201(d)(1)(A) and (D), which authorize HHSC to adjust rates for medical assistance if state law is enacted requiring a rate reduction or restricting the availability of appropriated funds;
- §355.8021, which addresses the reimbursement methodology for home health services and durable medical equipment, prosthetics, orthotics, and supplies;
- §355.8085, which addresses the reimbursement methodology for physicians and other practitioners;
- §355.8441, which addresses the reimbursement methodology for Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) services (known in Texas as Texas Health Steps).

Proposed Rate Adjustments

A summary of the methodologies used to determine the proposed fee-for-service Medicaid rates is listed below:

1. 15-Minute Billing Increments

Currently, home health agencies are reimbursed by Texas Medicaid at an untimed encounter rate for all treatment procedure codes, while independent therapists and Comprehensive Outpatient Rehabilitation Facilities/Outpatient Rehabilitation Facilities (CORFs/ORFs) are reimbursed for the same procedure codes in 15-minute increments. HHSC will eliminate the encounter rate for home health agencies and establish a reimbursement rate based on 15-minute increments to align with the American Medical Association (AMA) Current Procedural Terminology (CPT) descriptions. This change only updates the reimbursement structure for procedure codes that have a timed aspect that aligns with the AMA CPT procedure code definitions. New reimbursement rates will hold all providers accountable for the amount of time spent with a client and reimburse based on the actual time spent with a client, in 15-minute increments. (Note: The procedure codes referenced in this initiative are not the same as those referenced in initiative 2.) The proposed Medicaid rates are based on the average of the existing Medicaid rates for children for all provider types.

2. Untimed Codes

Currently, CORFs/ORFs and independent therapists are reimbursed in 15-minute increments for certain therapy procedure codes. HHSC proposes to change Medicaid reimbursement for CORFs/ORFs and independent therapists from 15-minute increments to an untimed encounter rate to align with AMA CPT requirements. In conjunction with this change, HHSC will propose to adjust existing home health agency encounter rates for the same untimed procedure codes to reflect the average amount of billable time associated with these codes. This initiative only updates the reimbursement structure for procedure codes that have an untimed aspect that aligns with the AMA CPT code definitions. New reimbursement rates will reflect the average amount of billable time for CORFs/ORFs and independent therapists. (Note: The procedure codes referenced in this initiative are not the same as those referenced in initiative 1.) The proposed Medicaid rates are based on the average of the existing Medicaid rates for children for all provider types.

3. **Therapy Assistant Rate – Reduce to Lower Rate than Licensed Therapist**
Effective **May 1, 2016**, Medicaid medical policy changed to require therapy providers to bill all services rendered by a therapy assistant with a UB modifier. This modifier allows the Medicaid claims administrator and the managed care organizations to distinguish between services delivered by a licensed therapist and those delivered by a therapy assistant. HHSC will implement a lower rate for services provided by a therapy assistant. Effective **July 1, 2017**, fee-for-service reimbursement for services provided by therapy assistants and billed with the UB modifier will be set at 70 percent of the reimbursement for services provided by licensed therapists based on the salary differential between licensed therapists and therapy assistants.
4. **Lower Speech Therapy Reevaluation Reimbursement Rate**
Currently, the speech therapy reevaluation procedure code is reimbursed at a higher rate than the evaluation procedure codes. HHSC will establish a lower fee-for-service rate for the reevaluation code as it requires less time and effort than an initial evaluation. The re-evaluation is proposed to be reimbursed at 70 percent of the Medicaid rate for an evaluation.

Specific proposed payment rate adjustments are listed in the attachments outlined below:
